This course is NOT eligible for Gordon Rule (writing requirement).

COURSE DESCRIPTION

ANT 4114 surveys the foundational conceptual principles of contemporary theory and practice in anthropological archaeology. It is designed for advanced anthropology majors and minors as well as majors in related disciplines who require a thorough overview of fundamental archaeological constructs and methods of research and interpretation, along with an awareness of the contemporary challenges facing archaeology and archaeology’s social relevance in the present and future. The course combines lectures with practical hands-on applications and introduction to methods and techniques in the laboratory period. Case studies and artifact examples are drawn from a variety of prehistoric and historic sites, with special attention to Florida archaeology. Students should already have some basic knowledge of archaeological techniques and world archaeology by completing ANT 2140, ANT 3141, or an equivalent course.

ANT 4114 is intended to prepare students for additional courses in archaeology, including area courses, field school, artifact analysis, zooarchaeology, and paleobotany. It is essential training for anyone contemplating graduate study in anthropology and archaeology or for a career in practicing or academic archaeology, as well as forensic anthropology, Classics, history, art history, museology, historic site interpretation, cultural resource management, and historic preservation law.

STUDENT LEARNING OUTCOMES

1) Recognize the basic principles and practices that organize and motivate archaeological field and laboratory investigations, including research design, site survey and excavation, and materials analysis. 2) Apply foundational methods and the ideas upon which they are based by which archaeologists interpret these data to understand general principles of dynamic historical and material processes, now and in the past, and their traces and trajectories in the present and future. 3) Identify ethical issues pertaining to heritage management and the roles of professional archaeologists in the stewardship of cultural heritage.

REQUIRED READINGS

One textbook is required: Archaeology Essentials: Theories, Methods, and Practice (2nd ed. -2011) by Colin Renfrew and Paul Bahn. ISBN: 978-0500289129. We will read only a portion of the book. I suggest you rent it, purchase it as an e-book, or read the copy on reserve in the library.

All other required readings are available in pdf form available on e-learning or as digital journal articles. These include Units of the Archaeology Workbook by Susan D. Gillespie, which is needed for the Thursday labs. Students should print and complete the numbered exercises from the Workbook, most of which are handed in for grading during the laboratory periods.
E-LEARNING (Canvas)

Go to http://lss.at.ufl.edu. Use your Gator-link ID to log in to Canvas. All materials are organized by week in the Files tab. Certain assignments are to be accessed and uploaded through Canvas. Check the site regularly for announcements and handouts, especially before the lab period.

FORMAT

The course format for the Tuesday/Thursday lecture periods is lecture and guided discussion, illustrated with slides. Outlines may be provided ahead of time on Canvas for some lectures. Students are strongly encouraged to ask questions during the lectures. However, talking amongst yourselves is disruptive, and all students are expected to show respect for classmates who are trying to listen to the lecture.

PERSONAL DEVICES

Cell phones must be silenced and stowed out of your sight. Laptops and tablets are allowed only for taking notes; any other use is prohibited and will be monitored. Newspapers and other reading materials not relevant to the class should be put away when class begins. You need to pay attention to the lectures.

LAB MEETINGS

The Thursday labs do NOT summarize the lectures nor do they provide a review of material prior to exams. Instead, new material is introduced in the workbook and additional readings, accompanied by laboratory exercises. The workbook has exercises for you to complete, some as homework and some during your lab meeting. See the schedule for the due dates. Print and bring your workbook exercises to lab and read ahead (not during class time) to be able to finish assignments in the allotted time. There is NO time available during the 50-minute lab for you to read your assignment—you must come ready to work. These exercises prepare you directly for the exams—consider them as sample tests. Some labs are held outdoors.

Supplies: For some exercises you will need a 30 cm ruler with metric measurements, metric graph paper (you can download and print graph paper from the internet), scissors, and a calculator. Except where mentioned in the syllabus, do not bring laptops to the lab; they will get in the way. No food or beverages are allowed in the lab (B357 Turlington)–this policy is strictly enforced.

ATTENDANCE

Lectures: All students are expected to be in their seats and ready to listen at 1:55; class begins promptly at that time and attendance (via an activity) is taken then (5% of final grade). Missing lectures will prove detrimental to your understanding of the course material and to your final grade. If you must miss lecture, it is your responsibility to obtain the lecture notes from a classmate.

Labs: Attendance is also taken during labs and figures directly into your grade. For every lab period missed (unexcused, starting 1/15), 3 points are lost. Unless your absence is excused, you will not receive credit for exercises due during a missed lab period; however, they can be turned in for correction in preparation for the next exam. Students with excused absences can request a make-up lab to compensate for the loss of points; however, some lab exercises are impossible to reconstruct. (An excused absence is involuntary, such as due to religious holiday, accident, illness, death in the family–you must provide the excuse as soon as you are able). Being late, unprepared for an exercise (not having your workbook or materials or not having done the reading) will also be noted and 1-2 points may be deducted for that lab period. Make every effort to be prepared for and attend Thursday lab!

LAB EXERCISES AND ASSIGNMENTS

Lab exercises are corrected and graded. Homework exercises are collected at the beginning of class; in-class exercises are started and/or finished in class. All exercises are expected to be completed; they have variable point values. Late exercises may be corrected but receive no credit without a valid excuse for their tardiness (see excused absence above). All students are expected to do their own work. Except for group activities, any evidence that you relied on someone else for answers will result in the loss of credit for both persons. Don’t lend your completed assignments to a “friend” who wants to copy them!
EXAMS
Exams consist of objective questions (matching, multiple-choice, fill-in-the-blanks), problem sets, and short answers. Missed Exams may be made up only if you experience an involuntary absence during the scheduled exam period (see above) and if you (or someone on your behalf) has informed the Professor or the TA preferably before the exam begins, but usually no later than within a week afterward. Missed exams should be made up within one week of the original exam date at the instructor’s convenience.

GRADING
All grades in this course are earned throughout the semester, not negotiated individually at the end of the semester. Do not request a grade adjustment based on work other than what is described in this syllabus. Grading is based on mastery of the course material, as determined from the following:

<table>
<thead>
<tr>
<th>Component</th>
<th>Points</th>
<th>Percentage of Final Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st exam (2/3)</td>
<td>60</td>
<td>20%</td>
</tr>
<tr>
<td>2nd exam (3/17)</td>
<td>60</td>
<td>20%</td>
</tr>
<tr>
<td>3rd exam (4/21)</td>
<td>60</td>
<td>20%</td>
</tr>
<tr>
<td>Workbook exercises/lab assignments:</td>
<td>60</td>
<td>20%</td>
</tr>
<tr>
<td>Lab attendance and participation:</td>
<td>45</td>
<td>15%</td>
</tr>
<tr>
<td>Lecture attendance, participation:</td>
<td>15</td>
<td>5%</td>
</tr>
<tr>
<td>Total</td>
<td>300</td>
<td></td>
</tr>
</tbody>
</table>

Letter grades are assigned at the end of the semester, based on a maximum of 300 points, according to the grading scale below. See University policy: http://www.registrar.ufl.edu/catalog/policies/regulationgrades.html

Important: If a minimum grade of C is required to fulfill certain graduation requirements, C- does not fulfill those requirements. Note GPA points for each letter grade in the bottom line of the chart below. (Don’t pay attention to a grade “assigned” to you by the Canvas e-learning system; it does not determine your grade.)

<table>
<thead>
<tr>
<th>Grade</th>
<th>GPA Points</th>

</table>

The gradebook is “closed” on the date of the university-scheduled final exam for the class. Any overdue assignments must be received by that date and time.

COPYRIGHT INFORMATION
The contents of the syllabus, all lectures, any lecture outlines, handouts, and the workbook for this course are copyright-protected. Lectures and slides may not be video-recorded, audio-recorded, or photographed without the instructor’s permission. Neither lecture notes nor the workbook may be reproduced, sold, or distributed in any profit-making enterprise. This would constitute a punishable breach of copyright protections, and students who do so will be subject to sanctions; see the University code of ethics.

STRATEGIES FOR SUCCESS
Attend class–be on time and be prepared. Keep up with all the readings each week. Redo any workbook exercises you did poorly. Take the practice quizzes. Ask questions in lecture and in lab section if you have any difficulty understanding the material. Contact us by email. Meet with us in person. The problem-solving components of this course may be unfamiliar. You are asked to think, be imaginative, look for patterns, apply concepts, and make interpretive judgments—not just memorize material. The readings are written for professionals and will be challenging. The workbook exercises are designed to prepare you directly for your exams, so do not fall behind in your readings, exercises, and highlights.
**ACCEPTANCE OF COURSE REQUIREMENTS**

By remaining registered in this class, you agree to accept the course requirements and expectations as stated in this syllabus. These are in addition to other general University requirements and codes of conduct as stated in official documents; see the last page.

### Schedule of Topics and Assignments

* = Thursday lab [finish all reading assignments and homework exercises before lab class meets]

R = other reading assignment or web assignment  
T = textbook  
Unit = Workbook chapter  
Exercise = Workbook problem  
due = collected at start of class (or assignment due on Canvas)

NOTE: Readings and assignments are very tentative and subject to change. Check announcements on E-Learning for up-to-date assignments.

Bring something from home that you picked up on a trip elsewhere and be prepared to briefly talk about it |                                            |
|        | *4/2 | Landscapes of Change (St. Johns sites case study)                    | Exercise #18 in class (start at home) |                                            |
### Week 13

**4/7**

#### Part VII. Theory in Practice in Archaeology Today

*Indigenous Archaeologies, Conflicting Stakeholders, and Multiple “Pasts”*

- R: Harrington (1993) “Bones and Bureaucrats” (African Burial Ground) *OR* Harrington updated to 2006; and see [http://www.nypap.org/content/african-burial-ground](http://www.nypap.org/content/african-burial-ground)
- R: Neely (2014) “Ancient Site’s Cultural Resources Secretly Buried”

**4/9**

- **The New Cultural Heritage**

**4/9**

- **Lab 13**
  - The Past in the Present: Who Decides? (Miami Circle case study)
  - R: Bawaya (2014) “An Echo of the Miami Circle”
  - Ex. #19: in class Debate: Preservation or Development in Downtown Miami [bring laptops for online research]

---

### Week 14

**4/14**

- **The Contemporary Past**

**4/16**

- **Archaeology: Past, Present, Future**
  - R: TBA

**4/16**

- **Lab 14**
  - Doing Archaeology
  - Ex. #20 in class: Florida’s dynamic coastline [bring laptops for online research]

---

### Week 15

**4/21**

- **Exam III**

---

The following information is provided in conformance with University Policy:

**Policy related to class attendance, make-up exams, and other work**

Requirements for class attendance, make-up exams, assignments, and other work in this course (e.g., excused absences) are consistent with university policies that can be found in the online catalog at: [https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx](https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx).

**Accommodations for students with disabilities**

Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Professor when requesting accommodation. Upon receipt of documentation, the Professor will grant the accommodation. Students with disabilities should follow these procedures as early as possible in the semester.

**Online course evaluation process**

Students are expected to provide feedback on the quality of instruction in this course based on 10 criteria. These evaluations are conducted online at [https://evaluations.ufl.edu](https://evaluations.ufl.edu). Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at [https://evaluations.ufl.edu/results](https://evaluations.ufl.edu/results).

**Religious Observances**

Students seeking modification of due dates for assignments and exams for religious reasons (e.g., holiday observances) should contact the Professor and request this modification; it will then be granted.

**Academic Honesty**

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On
all work submitted for credit by students at the University of Florida, the following pledge is either required or implied:

“On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (http://www.dso.ufl.edu/secret/process/student-conduct-honor-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Instances of dishonesty include conducting unauthorized research on the internet and failing to cite sources of information on any work submitted, as well as unauthorized collaborating with students or others to determine the answers on assignments and exams.

Counseling and Emergency Services
– the University Counseling Center, 301 Peabody Hall, 392-1575
  http://www.counseling.ufl.edu/cwc/Default.aspx
– Student Health Care Center, 392-1171
– Career Resource Center, Reitz Union, 392-1601
– Center for Sexual Assault/Abuse Recovery and Education (CARE), Student Health Care Center, 392-1161
– University Police Department 392-1111 (non-emergency); call 9-1-1 for emergencies

Electronic Course Reserves
The electronic course reserve service is offered by the George A. Smathers Libraries. Under the Rehabilitation Act and the Americans with Disabilities Act, students with disabilities have the right to equal access, use and benefit of the course materials that have been placed on reserve in the Libraries.

Students who have registered with the University of Florida Disability Resource Center should initiate their request for assistance and accommodation in accessing these materials. The Center will work with the Libraries Course Reserve Unit to provide accessible course materials. All information submitted by the student to the Libraries in fulfilling the request for accommodation will be kept confidential. For more information on services for students with disabilities, contact the UF Disability Resource Center at 352-392-8565 or at accessuf@dso.ufl.edu. For general information on course reserves, please contact the Course Reserves Unit at 352-273-2520, or email at eres@uflib.ufl.edu.

It is best to use the UF VPN client when accessing electronic materials course reserve materials as well as e-books, on-line journals, databases, etc. offered by the library. The VPN client is easily installed and configured, and provides easy access to electronic materials using off-campus computers. For more information on using the VPN client, go to http://www.uflib.ufl.edu/login/vpn.html.

Software Regulations
All faculty, staff and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate.
