Course Objectives:

This course provides an introduction to the field of forensic anthropology. Forensic anthropology is an applied area of biological anthropology that focuses on the identification of human skeletal remains in a medicolegal context. This course will introduce you to basic terms and principles of forensic anthropology, focus on concepts and their applications, and present case histories. This is not intended to be a “how-to” course but a general overview of the discipline. Upon completion of this course, you should be able to:

- Define the field of forensic anthropology and its purview
- Have a general understanding of human osteology
- Understand the basic concepts underlying determination of the biological profile, including sex, age, ancestry, and stature
- Describe different types of skeletal trauma, and differentiate between antemortem and postmortem trauma

*****Some lectures will include disturbing and graphic images. Consider your reaction to this material before taking this course. You will be responsible for all course material.*****

Course Materials:

Required:

Warren MW et al. 2011 Bare Bones: A Survey of Forensic Anthropology. 2nd edition. Kendall-Hunt Publishing.

Additional readings may be provided by the instructor and posted on Canvas.

Grade Distribution:

Final grades will be calculated as a percentage of the total available points as follows:

A 93% - 100% B- 80% - 82% D+ 67% - 69%

A- 90% - 92% C+ 77% - 79% D 63% - 66%

B+ 87% - 89% C 73% - 76% D- 60% - 62%

B 83% - 86% C- 70% - 72% E 59% or less

Grades ending in a fraction of a percentage point will be rounded to the nearest whole number (ex. a grade of 89.6 becomes a 90.0). Should you have questions, please feel free to consult the University of Florida's current grading policies and procedures at the following website:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Course Mechanics:

Because this is an online class, students are expected to be self-motivated. During the sixteen week period the class is in session there will be sixteen modules with one a week. All assignments for the modules must be completed during the five day period they are assigned and will be due each Friday at 11:59p.m. Except for discussions (see below), **DON'T wait till the last minute to complete the assignments.**

The instructions and materials needed for each assignment can be found under the relevant module. Please make sure you read the syllabus and familiarize yourself with Canvas. Students are responsible for all the material in each module and need to view all links posted on the course's website (e.g., lecture videos, films, articles). All of the material is fair game when it comes to quizzes, discussions and activities.

Assignments:

There is one quiz for each of the sixteen modules. Each quiz is multiple choice and worth 10 points. The quizzes make up **45%** of your grade.

Students will also need to complete fourteen online activities. This averages about one a week. The activities range from 5 to 10 points and are approximately **30%** of the total grade.

There will be 6 discussion topics throughout the semester. Student must post a substantive original comment to the discussion by **Wednesday at 11:59 p.m.** They must then make two substantive responses to other individual's comments by **Friday at 11:59 p.m.** This means there are 6 original comments and 12 responses. Participation in these discussions is approximately **20%** of the final grade.

There will be a five page final paper where each student will synthesize three areas of Forensic Anthropology. The paper is worth 20 points and is **5%** of the final grade.

There may be opportunities for extra credit at the purview of the instructor.

Online attendance and Late Policy:

Assignments must be turned in by 11:59 on Fridays for full credit. No late work will be accepted and the student will be given a zero.

For the discussion topics, the original Discussion is due by Wednesday at 11:59. One point will be deducted for each day that is late. All assignments for a given week must be submitted by the Friday deadline. No late work will be accepted, and the student will receive zero credit (there is no partial credit). Only students with DOCUMENTED excused absences may turn in work after the Friday deadline, including quizzes, discussions and activities. Students must notify the instructor at least 48 hours before the absence.

Academic Honesty:

Cheating and plagiarism, intentional or otherwise, during the course will not be tolerated. Students found cheating will receive a score of zero (0) points for the assignment. Disciplinary action will follow university policy as outlined by the Dean of Students. If you are not sure if something is plagiarism please ask!

See <http://www.dso.ufl.edu/sccr/honorcodes/honorcode.php> for more information on student academic honesty, rights, responsibilities, and behavior consequences.

Accommodations:
