*This class is geared to information, not judgement or persuasion. Everyone has some basic knowledge gained from our "informal sex education network". This course provides information that may shed light on 'gaps or errors' in your knowledge base that sometimes may be difficult to digest. The key to this class is to have an open mind.*

---

**Course Description:** *Fulfills General Education (GenEd) requirement in Diversity (D), as well as Social and Behavioral Sciences (S) (see the end of the document for GenEd objectives and Student Learning Outcomes). This course examines human sexuality from an anthropological point of view. The hallmark of anthropology is the emphasis on both the biological and cultural dimensions of what it means to be human. That perspective enriches our understanding of human sexuality because it encourages us to examine a wide range of human sexual experiences within and across cultures and over the evolutionary history of our species. We will apply this holistic perspective to the genetic, physiological, psychological, social, cultural, and evolutionary dimensions of human sexuality. Topics will include gender roles and identity, the interplay of behavior and sexual ethics, and biological foundations. This course is appropriate for those seeking an integrative approach to human sexuality.*

- **NOTE:** The summer version of this course does NOT come with words for UF's Writing requirement.

## ASSIGNMENT DESCRIPTIONS

**NOTE** - All writing should be 12pt font, 1" margins, and double-spaced and follow *APA writing style and formatting* (<https://www.apastyle.org/>).

### Quizzes: Enhances SLOs 1,2,4

- There will be an introduction quiz with multiple-choice questions covering material in the syllabus and first few lectures.
- You will be required to complete the textbook chapter quizzes online through **McGraw-Hill Connect**.
- Online Lecture quizzes will be taken after you watch lecture videos.

### II. Exams: Enhances SLOs 1,2,4

Two non-cumulative exams will cover material from assigned readings, lectures, guest speakers, and class discussions. The exams equally weighted (12.5% each toward course grade).

- All exams will be administered on e-Learning. **The exams will be made available on the scheduled day between 12 a.m. and 11:59 p.m.** The exams will be timed, but you will be able to use notes. You must complete the exam by the end of the open period.
- Exams must be taken at the scheduled time; there will be no makeup exams. Exceptions will be made only in the case of incapacitating illness or other university-approved absence. In such cases, you must provide Dr. Bogart with written documentation from an appropriate authority at least 24 hours before the exam or as soon as possible thereafter.
- **DRC (Disability Resource Center) student accommodations should be provided to the Instructor by the end of week 2.**

- III. **Public engagement synthesis:** The objective of this exercise is to think about current sexual communication, education, and information. Ultimate questions to consider are: *Where is sexual information coming from, how accurate is the information, and how does it influence people's thoughts and behaviors?* The objective is to consider one realm of sexual discourse that is covered in this course, think and consider what and how people view the topic, and finally come up with an *innovative way (e.g. school activity, flyer, commercial, song, etc.) that could be implemented to aid in the discourse (communication) of this topic in a final synthesis.* This

synthesis will be more of a **popularized** format (rather than scientific) and should be written in a way to get accurate and clear information to the general public. **Enhances SLOs 1-4**

- i. **Final synthesis (3-5 pages, 30 pts):** Write about your idea and the content of that idea. *At least six references* need to be cited and referenced. Provide the **details of your idea** and the **major literature to disseminate** to the public and **how you will get this information to the public**, possibly using relevant on-campus resources (i.e. health center or associations/clubs).

On the due date (or before), you must upload an electronic version of various components (in .doc or .docx format - or ppt/pptx for presentations) to the Canvas course page (<https://elearning.ufl.edu/>), where it will be run through Turnitin. *If there is any evidence of plagiarism, you forfeit credit towards the writing requirement, receive a grade of zero for the assignment, and be reported to Student Judicial Affairs.*

**Assignments will lose five percentage points for each day they are late (including weekends and holidays).** An assignment is considered late if it is not submitted electronically **by 11:59 p.m.** on the due date. Each additional 24 hours beyond that point will automatically reduce the maximum possible grade for the assignment by five percent. ***No submissions will be accepted after a week from the deadline without arranged accommodation with Dr. Bogart.***

**IV. Discussion:** You are required to *participate* in the discussion boards. *Advances SLOs 1, 2, 3, 4*

- i. **Readings and discussion board posts (2pt for each article):** You will have assigned readings from the course reader for each module. For each reading you will answer a preassigned question on the associated Canvas Discussion Board. You should answer the question thoroughly using a minimum of 5 sentences. You **must also respond** to another student's answer for each of the articles to receive full credit for this exercise.

#### **V. Extra Credit**

- **Lecture Participation (PlayPosit videos): up to 3% to grade:** Your participation during interactive lecture components will be monitored for participation and allowing for Extra Credit. **Participating 100-80% = 3% EC, 79-60% = 2%EC, 59-30% = 1%EC, <30% = no extra credit.**
- **Other opportunities will be provided such as attending zoom meetings and extra activities**

### **General Education Objectives:**

(D) In Diversity courses, students examine the historical processes and contemporary experiences characterizing social and cultural differences within the United States. Students engage with diversity as a dynamic concept related to human differences and their intersections, such as (but not limited to) race, gender identity, class, ethnicity, religion, age, sexual orientation, and (dis)abilities. Students critically analyze and evaluate how social inequities are constructed and affect the opportunities and constraints across the US population. Students analyze and reflect on the ways in which cultures and beliefs mediate their own and other people's understandings of themselves and an increasingly diverse U.S. society.

(S) Social and behavioral science courses provide instruction in the history, key themes, principles, terminology, and underlying theory or methodologies used in the social and behavioral sciences. Students will learn to identify, describe and explain social institutions, structures or processes. These courses emphasize the effective application of accepted problem-solving techniques. Students will apply formal and informal qualitative or quantitative analysis to examine the processes and means by which individuals make personal and group decisions, as well as the evaluation of opinions, outcomes or human behavior. Students are expected to assess and analyze ethical perspectives in individual and societal decisions.

(WR) 6000 words: The Writing Requirement (WR) ensures students both maintain their fluency in writing and use writing as a tool to facilitate learning. Writing assignments will be graded with written feedback with respect to grammar, punctuation, clarity, coherence, and organization and handed back to students. Course grades have two components. To receive writing requirement credit, a student must receive a grade of C or higher and a satisfactory completion of the writing component of the course.

### ***This course accomplishes the General Education Objections through:***

- Employing the scientific method to research an aspect of human sexuality and relationships in campus life.
- Improving students' critical thinking in regards to sexuality culture and society in the United States and around the world, while also interpreting the social inequalities regarding sex, gender, sexual orientation, sex work, and STIs
- Analyzing social and cultural influences on the students' individual sexual knowledge and behaviors and those affecting societies, politics, and ethical standards.

- Examining how sexuality ideas have changed through time and biological perspectives on the origins of human behavior related to sexuality.
- Talking frequently about controversial and emotionally charged topics in sexuality allows for students to become comfortable talking about sexuality and examining their own beliefs and assumptions about sexuality.

Student Learning Outcomes: Reflecting the curricular structures of Gen Ed designations, after taking **Human Sexuality and Culture** students will be able to:

1. Identify, describe, and explain the key themes, terminology, methodologies, historical processes and contemporary experiences characterizing diversity as a dynamic concept related to human sexuality and examine the differences and their intersections, such as (but not limited to) race, gender identity, class, ethnicity, religion, age, sexual orientation, and disability (Content SLOs Gen Ed S and D).
2. Critically analyze and evaluate how social inequities are constructed and affect the opportunities and constraints of different groups relating to sexualities in the United States. Analyze and reflect on the ways in which cultures and beliefs mediate understandings of an increasingly diverse U.S. society (Critical Thinking SLOs D).
3. Apply formal and informal qualitative or quantitative analysis effectively to examine the processes and means by which individuals make personal and group decisions about human sexuality. Assess and analyze ethical perspectives in individual and societal decisions (Critical Thinking SLOs Gen Ed S).
4. Communicate knowledge, thoughts and reasoning clearly and effectively regarding issues surrounding sexuality (Communication SLOs for Gen Ed S and D).

*Go to the section on Assignment Descriptions to see how the above SLOs will be assessed*

**SLO Assessments:**

- Exams will assess the students' comprehension of the material.
- Textbook chapter quizzes through an online platform will ensure the students keep up with the readings associated with lecture.
- Discussion sessions emphasize activities that enhance student comprehension of material and promote student critical thinking, e.g. setting up a debate on the legalization of prostitution
  - Discussion session activities offer debates, games, and videos. Students communicate their views as well as views of society and different cultures.
- Article readings from the required reader apply course content to real-life situations and students answer critical thinking questions
- The research project emphasizes applying the course content to everyday lives on campus and examining sexuality views to critically think about their own and others sexuality views and how that applies to society. The research project offers students the ability to communicate a well-thought-out hypothesis driven research into sexuality on campuses
- The Critical Thinking exercise enhances student identification of major controversies regarding sexuality, such as STIs, LGBT+, prostitution, sex trafficking, etc. and allows students to discuss and critique major controversies regarding sexuality, Students draw up an innovative method to help the discourse and describe them in a final synthesis for the - for example writing up brochures to hand-out to students.
