Dr. Katherine Grillo

Spring 2023

Tue 10:40-12:35pm

Thu 10:40-11:30am

## an anthropological look at cattle-herding societies worldwide

topics will include:

- archaeological histories of cattle herding, from the domestication of cattle to their spread throughout the world
- rangeland ecology and the ecological, political, and cultural strategies that make mobile cattle pastoralism a dynamic and sustainable way of life
- modern "cattle cultures" in places including eastern Africa, the Alps, and Florida

no prerequisites, all are welcome
