THE INCA AND THEIR ANCESTORS: THE ARCHAEOLOGY OF ANDEAN SOUTH AMERICA

Drawing upon archaeological, historical, and ethnological sources, this course examines the economic, social, and political evolution of TAHUANTINSUYU, or "The Land of The Four Quarters" as the Inca called their vast imperial realm.

Embracing the rugged Andean Mountains, the parched Atacama Desert, and fringes of the Amazon Jungle, the Inca Imperium was the very largest empire of antiquity ever to arise in the Western Hemisphere. The Inca's many unique adaptations to unusual environmental conditions, as well as the empire's fascinating political institutions will be traced back in archaeological time through a rich succession of earlier dynasties and polities to primordial times when people first populated South America.
